PROFILE SUMMARY

Aspiring Cybersecurity Analyst with knowledge in network security, penetration testing, and vulnerability assessment. Skilled in tools such as Wireshark, Nmap, and Burp Suite. Built personal cybersecurity labs and completed hands-on projects in ethical hacking and incident response. Passionate about protecting systems from real-world threats while continuously learning.

PROJECTS / LABS

Cybersecurity Home Lab

- Set up Kali Linux and Windows VM to simulate penetration testing and defense.
- Performed vulnerability scans using Nessus and Nmap.
- Documented results and mitigation techniques.

Network Traffic Analysis

- Used Wireshark to capture and analyze traffic in a test network.
- Identified suspicious packets and simulated intrusion detection.

Web Security Testing

- Practiced OWASP Top 10 attacks using DVWA (Damn Vulnerable Web App).
- Exploited SQL Injection and XSS, then applied fixes.

CERTIFICATIONS

- Google Cybersecurity Certificate (Coursera)
- TryHackMe Labs
- Cisco Introduction to Cybersecurity

ACHIEVEMENTS

- Completed 50+ challenges on TryHackMe
- Participated in Capture the Flag (CTF) competitions
